

USAGE AND MAINTENANCE

Rubber sheetings

ITEM DESCRIPTION:

Rubber sealing plates are made on the basis of synthetic and natural rubbers, they have different properties, which are given by the use of special synthetic rubbers, rubber fillers and additives. They are used as a semi-finished product for the further production of sealing and damping parts.

STORAGE:

They are stored in a cool, dark place without impurities.

TREATMENT AND CLEANING:

Clean with a sorghum broom or horsehair brush. No hard objects such as wire brushes may be used. We can clean them with a soapy solution. They must not be in contact with any acids, bases or solvents.
